

Feedback	Suggestions	Do you think the fair grounds is a good location for the market? If not, where would you like it?	What day would you prefer the market?	Other Comments?
Excellent	Of course, having more vendors would improve the market, which is obvious. I'm sure the organizers have tried to get as many vendors as possible. All in all, I think the Ledyard Farmer's Market 2011 was excellent.	great location	Wednesday	Ledyard picked a good time 4-7 pm. So many area Farmer's Markets are 10-2, so when can working folks participate???
Good	A cheese tent and one or two more produce tents.	Yes	Wednesday	Have really enjoyed having a farmer's market in our town - Thank you to all the participants and organizers. Can't wait for next year.
Very Good	Could we have live music?	yes fine	Wednesday	
Average	more choices. Also, one of the vendors that was selling ruharb should put it in a cooler because it was just so limp from her picking it that morning. I would have bought it if it was crisp and fresh.	It's ok...	Thursday	
Very Good	more vendors	Yes, like it at the fairgrounds	Friday	Enjoyed meeting the local farmers and vendors.
Average	More vendors More variety Maybe start a little earlier	yes	Monday	
Very Good	My only suggestion is to perhaps have some prepared, hot (or cold) food available for purchase like a taco truck from Taco Pacifico (just an example) or have a local restaurant business featured each week to sell their food. It can be a win-win situation all around. The restaurant can obtain more customers, and marketing of not only the restaurant but also the farmers can be promoted through word of mouth campaigns PLUS the customers can have a light dinner there while they're shopping. Usually when I have gone, it has always been around dinner time and by the time I get home with the kids dinner is served late.	Yes it is, because it's fenced in, large and there is a playground the children can play at.	Wednesday; Thursday; Friday	I also liked listening to the musicians play while I shopped which made it feel more community oriented.
Poor	More distributors with more variety and quantities of fruits and vegetables; also improved quality in produce that was brought - although with such a horrible growing season we had this year, this might not have been possible - I had only a 50% success rate with my own garden.	Don't change the location - fair grounds is the perfect location	Wednesday	Wednesday is fine; people are used to this day and time.
Excellent	Investigate some ways to make for better handicap access. Parking inside the fence?	Perhaps the Ocean State Job Lot parking lot? Or adding it as another Ledyard location.	Wednesday	
Excellent	More Vendors	Yes	Wednesday	None
